### *Statement of the Board's Responsibility*

---

The Board of AS Latvijas Jūras Medicīnas Centrs (hereinafter – the Company) is responsible for preparing the financial statements of the Company.

The financial statement on pages 9 to 26 is prepared based on accounting records and source documents and present fairly the financial position of Companies as at 30 September 2022 and the results of its operations, and cash flows for the 9-month period of 2022.

The above mentioned financial statement of the Company is prepared in accordance with the laws 'On accounting' and 'Annual Reports and Consolidated Annual Reports Law' effective in the Republic of Latvia, on a going concern basis. Appropriate accounting policies have been applied on a consistent basis. Prudent and reasonable judgements and estimates have been made by the Management in the preparation of the financial statement.

The management of the Company is responsible for the maintenance of a proper accounting system, safeguarding the Company's assets, and the prevention and detection of fraud and other irregularities in the Company. The management is also responsible for compliance with laws of the Republic of Latvia.

## *Management Report*

---

### **Type of business**

A/S Latvijas Jūras medicīnas centrs (hereinafter – LJMC or the Company) is a certified and advanced private medical facility available to everyone, which consists of Sarkandaugava Ambulatory Healthcare Centre at 23 Patversmes iela, Rīga; Central Hospital at 23 Patversmes iela, Rīga; Vecmīlgrāvis Hospital and Northern Diagnostics Centre 26 Vecmīlgrāvja 5.līnija; Rīga, and Vecmīlgrāvis Primary Health Care Centre at 10 Melidas iela, Rīga. In 2021, the average number of employees at LJMC was 352. The shares of A/S Latvijas Jūras medicīnas centrs are traded on the Baltic Secondary list of Nasdaq Rīga.

As of 5 September 2013, A/S Latvijas Jūras medicīnas centrs has been included on the list of medical facilities approved by the Health Inspectorate of Latvia, which provides medical tourism services, namely, LJMC provides medical tourism services as a reliable partner and this provides an insight into the overall Latvian health care system because the list only includes those healthcare institutions which have been registered with the register of health care institutions for at least 3 years and control has been carried out in the health care institution during the past three years.

LJMC has accredited Clinical Diagnostics Laboratory at 23 Patversmes iela with the Latvian National Accreditation Bureau.

LJMC has signed cooperation agreements with all health insurance companies operating in Latvia.

LJMC has received certificate No. MSC-50-034 issued by Exova BM TRADA confirming compliance of the energy management system with ISO 50001:2018.

### **Activities in the 12 months of 2021 and further development**

#### *The Company's activities in the 12 months of 2021*

In 2021, LJMC continued to provide high-quality medical services and attract new patients. Similar to prior years, also in 2021 LJMC employed excellent doctors from Latvia and competent medical personnel. Activities of highly qualified and professional personnel allowed LJMC to provide examinations of competitive and exceptional quality and adherence to strict precautionary standards, and personnel can ensure safe and accessible services for patients when providing health care services. LJMC is on the official list of providers of medical tourism services maintained by the Health Inspection of the Republic of Latvia. In 2021, LJMC published information in the catalogue "Health Tourism in Latvia", created and supported by LIDA.

During 2021, LJMC, when providing health care services, adapted flexibly to the normative documents of the Ministry of Health, which imposed restrictions on preventing and overcoming the spread of Covid-19. Both secondary ambulatory health care services and daily hospital services, as well as paid health care services were provided to the extent permitted in the normative documents, ensuring continuity of activity and the monitoring of the impact of new events and conditions.

In 2021, LJMC promoted paid health care services, ensuring increase in the number of patients living in Latvia, promoting competitiveness and recognition of LJMC.

The Radiology Department in 2021 provided the full range of diagnostic services (magnetic resonance, X-ray examinations and ultrasonography) increasing the amount and quality of services (both state paid services and services paid by patients). PET/CT radiological examinations are available and payable both by private means and state funds.

In order to ensure compliance with the requirements of GDPR in 2021, LJMC in cooperation with an independent data protection inspector continued improvement of documents in compliance with the laws and regulations, continued improvement of renewing the contracts (on the use of medical facilities in digital form, use of medical information system, insurance company services, communication services), and began the training process for LJMC staff.

In 2021, LJMC signed agreements with the National Health Service for the provision of state paid medical services in the amount provided by the budget for 2021.

In 2021, LJMC continued working on ISO. In 2019, LJMC received ISO 9001:2015 quality certification in functional diagnostics and radiological diagnostics, in-patient medical rehabilitation and day-care rehabilitation valid until 14 March 2025, and continued updating the hygiene and disinfection plan, and implementing ISO certification in other units of LJMC.

## *Management Report*

---

### *Further development of the Company*

To attract even more patients, in 2021 LJMC will by made investments to introduce innovative solutions for providing medical services, improve the qualification of the staff and enhance patient service. Also, LJMC will continue the state policy in re-profiling of hospitals to ambulatory healthcare institutions, thus adding to the health care service offering. In 2022, the LJMC will continue to further ensure compliance with precautionary standards in the provision of healthcare services, so that cooperation between the patients and healthcare professionals could facilitate access to those services.

Continuing to improve the available services with a highly qualified and professional diagnostic service, the Radiology Department of LJMC, as one of the most modern and innovative cancer diagnostic centres in Eastern Europe, will help to increase the flow of local and foreign patients when a safe flow of patients is restored.

By attracting patients not only from Latvia and other Baltic countries, but also from other EU countries and offering high-quality medical services, LJMC will increase its competitiveness in the Baltics medical market.

### **Financial results**

In the 9 months of 2022, LJMC operated in accordance with the budget approved for 2022. The profit of LJMC is EUR 346 508.

### **Risk management**

LJMC continues carrying out activities seeking to limit the negative impact of potential financial risks on the financial position of LJMC by implementing a set of control and analysis measures. Financial assets exposed to credit risk are mostly cash, trade receivables and other receivables. Credit risk is managed by LJMC by performing regular debtor control procedures and debt collection measures aiming to identify and solve any problems on a timely basis.

Liquidity risk is managed by LJMC in line with the principle of prudence ensuring that appropriate credit resources are available to cover liabilities as they fall due. LJMC does not use loans, except operating leases.

### **Subsequent events and going concern**

No other significant subsequent events have occurred in the period from the year-end to the date of these financial statements that would require adjustments to be made to these financial statements and disclosures added to the notes thereto. The Russia-Ukraine war is not expected to have material effect on the operations of the Company. The Company does not plan to enter into transactions with Russia, Belarus and Ukraine.

## *Notes to the financial statements*

---

### **(1) Information on the Company's activities and summary of significant accounting principles**

#### ***Information on the Company***

The legal address AS Latvijas Jūras medicīnas centrs (LJMC or the Company) is 23 Patversmes iela, Rīga, Latvia. The Company was registered with the Commercial Register under the common registration number 40003306807. The largest shareholders of the Company are Ilze Birka (17.50%), Mārtiņš Birks (17.50%), Jānis Birks (12.80%), Guna Švarcberga (10.36%), SIA POM (8.82%), Adomas Navickas (6.85%).

The Board comprises Jānis Birks (Chairperson of the Board), Juris Imaks (Board Member) and Anatolijs Ahmetovs (Board Member). The Chairperson of the Council is Mārtiņš Birks, Council Members are Viesturs Šiliņš, Ineta Gadzjus, Jevgēņija Kalējs and Uldis Osis.

The core business of the Company according to NACE rev 2. is Hospital activities (NACE 86.10); Retail sale of medical and orthopaedic goods in specialised stores (47.74); Education n.e.c. (85.59); General medical practice activities (86.21); Special medical practice activities (86.22); Dental practice activities (86.23); Other human health activities (86.90); Residential nursing care activities (87.10); Other residential care activities (87.90); Other social work activities without accommodation n.e.c. (88.99); Physical well-being activities (96.04); Other personal service activities n.e.c. (96.09).

#### ***Basis of preparation***

The financial statements were prepared in accordance with the law 'On Accounting' and the 'Annual Reports and Consolidated Annual Report Law' (hereinafter – the Law).

The management believes that the accounting policies used in the preparation of these financial statements are largely consistent with those used last year.

According to Article 3(6) of the Annual Reports and Consolidated Annual Reports Law, the Company applies the requirements of the law applicable to large companies as its transferable securities are included in the regulated market of the Republic of Latvia.

The profit and loss statement was prepared according to the turnover costing method. The cash flow statement was prepared according to the indirect method. The financial statements are prepared on the historical cost basis except for fixed assets disclosed under Land, buildings and engineering structures – land and buildings, which are measured using a revaluation method.

#### ***Accounting principles***

The financial statements were prepared in accordance with the following policies:

- a) Going concern assumption that the Company will continue as a going concern;
- b) Consistent valuation principles with those used in the prior year;
- c) Items were valued in accordance with the principle of prudence, i.e.:
  - the financial statements reflect only the profit generated to the balance sheet date;
  - all incurred liabilities and current or prior year losses have been taken into consideration even if discovered within the period after the date of the balance sheet and preparation of the financial statements;
  - all amounts of impairment and depreciation have been taken into consideration irrespective of whether the financial result was a profit or loss.
- d) Income and expenses incurred during the reporting year have been taken into consideration irrespective of the payment date or date when the invoice was issued or received; Expenses were matched with revenue for the reporting period.
- e) Assets and liabilities have been valued separately;
- f) The opening balance agrees with the prior year closing balance.
- g) All material items, which would influence the decision-making process of users of the financial statements, have been recognised and insignificant items have been combined and their details disclosed in the notes.
- h) Business transactions are recorded taking into account their economic contents and substance, not the legal form.

## *Notes to the financial statements*

---

### **Related parties**

Related parties represent both legal entities and private individuals related to the company in accordance with the following rules.

- a) A person or a close member of that person's family is related to a reporting entity if that person:
  - i. has control or joint control over the reporting entity;
  - ii. has significant influence over the reporting entity; or
  - iii. is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- b) An entity is related to a reporting entity if any of the following conditions applies:
  - i. The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
  - ii. One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
  - iii. Both entities are joint ventures of the same third party;
  - iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - v. The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
  - vi. The entity is controlled, or jointly controlled by a person identified in (a);
  - vii. a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - viii. The entity or any member of the group to which the entity belongs provides management personnel services to the entity or the parent of company of the entity.

Related party transaction – a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

### **Financial instruments and financial risks**

Financial instrument is an agreement that simultaneously results in financial assets of one party and financial liabilities of the other party.

The key financial instruments held by the Company are financial assets such as trade receivables, amounts due from related parties and other receivables, and financial liabilities such as prepayments from clients, accounts payable to suppliers and contractors and other creditors arising directly from its business activities.

#### *Financial risks connected with the Company's financial instruments, financial risk management*

Key financial risks related to the Company's financial instruments are:

- Credit risk is the risk that the Company may incur financial losses if parties to the transactions fail to fulfil their liabilities under the contracts, and credit risk is primarily connected with trade receivables;
- Currency risk – risk that the Company may suffer unexpected losses arising from fluctuations in the foreign exchange rates; the Company is not exposed to currency risk as it does not significant amounts of currencies other than EUR.
- Interest rate risk – risk that the Company may incur losses due to fluctuations in interest rates;
- Liquidity risk – risk that the Company will not be able to meet its financial liabilities in due time.

Management has implemented procedures to control the key risks.

#### *Credit risk*

The inability of insurance companies and patients to pay for the services provided by the Company in due time and in full amount. Most of the services are paid for within a short period of time after the provision of services or are funded by state or insurance providers, so the credit risk is low.

#### *Interest rate risk*

Management believes that interest rate risk is not material.

## *Notes to the financial statements*

---

### *Liquidity risk*

The Company has no external loans and it has significant financial resources to settle its liabilities.

### *Fair value of financial assets and liabilities*

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Financial assets and financial liabilities are carried at cost which according to management approximates their fair value at acquisition plus any related additional expenses. Purchase costs are acquisition costs of goods or services (net of discounts received) with added additional costs related to the purchase.

### **Reporting period**

The reporting period comprises the 9 months from 1 January 2022 to 30 September 2022.

### **Currency unit and revaluation of foreign currency**

All amounts in these financial statements are expressed in the official currency of Latvia – euro (EUR), the functional currency of the Company.

Foreign currency transactions are translated into EUR according to currency exchange rates effective at the date of transaction and determined by reconciliation of the system of the European Central Bank and other central banks and which is published on the website of the European Central Bank.

As at the reporting date, all monetary assets and liabilities are translated into EUR according to exchange rates published on the website of the European Central bank. Non-monetary items of assets and liabilities are revalued to euros in accordance with the reference exchange rate published by the European Central Bank on the transaction date.

Exchange rate per EUR 1:

	31.12.2021	31.12.2020
USD	1.13260	1.22710

Gain or loss resulting from payments under transactions executed in foreign currencies and the translation of monetary assets and liabilities denominated in foreign currencies is reflected in the profit and loss statement of the respective period.

### **Estimates and judgements**

The preparation of financial statements requires the management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. The actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Changes in accounting estimates are recognized in the period when those estimates are reviewed and in the future periods.

Key sources of estimation uncertainty are the following:

#### **(i) Useful lives of fixed and intangible assets**

Management estimates the useful lives of fixed and intangible assets in proportion to the expected duration of use of the asset (its expected capacity or effectiveness) based on historical experience with similar fixed assets and future plans. Land is not subject to depreciation. For other assets, depreciation and amortization is calculated on a straight-line basis over the entire useful life of the respective intangible asset and fixed asset in order to write their value or revalued value down to the estimated book value at the end of the useful life based on the following rates:

	%
Intangible assets	20
Buildings and constructions	2.5 - 2.85
Communication equipment and instruments	33.33
Other fixed assets	20

Current maintenance and repair costs of fixed assets are recognized in the profit and loss statement as incurred.

## *Notes to the financial statements*

---

### **(ii) Fixed assets**

Fixed assets other than land, buildings and constructions are carried at cost less accumulated depreciation and impairment losses.

Land, buildings and constructions are measured by the Company using the revaluation model. The balance sheet item Land, buildings and engineering structures of the financial statements of the Company is presented at revalued value, which equals fair value at the revaluation date net of subsequent accumulated depreciation and impairment loss.

Based on the Company's position as at 31 December 2020, the Company has estimated the value of the balance sheet item 'Land, buildings and engineering structures', and in accordance with the estimation, has determined the carrying amount of all land, buildings and engineering structures in line with market value and based on evaluation of external certified valuers. For more details on revaluation please refer to Note 8.

According to the policy, revaluation of a single building or construction requires the whole category to be revalued. To determine the impact of revaluation at the date of revaluation accrued depreciation is netted of cost or other value, which replaces cost in the financial statements, and the carrying amount is increased or decreased according to the revalued value of the building or structure in the following manner: depreciation accrued to the date of revaluation is initially written-off of the current carrying amount of fixed asset, and afterwards the residual value is increased or decreased according to the fair value of fixed asset as a result of revaluation.

In case the fair value of fixed assets at the balance sheet date is lower than their carrying amount, and such impairment is expected to be permanent, fixed assets are recognized at the lower value. The revaluation result is recognized in the profit and loss statement except where a previously recognized increase in the value of fixed assets offsets an impairment loss. In that event, the long term investment revaluation reserve is decreased by the amount of impairment.

In case the value of fixed assets at the balance sheet date is higher than the valuation on the balance sheet, fixed assets are revalued to the higher value if the increase in value may be assumed to be other than temporary. The increase in value resulting from revaluation is recognized under 'Long term investment revaluation reserve'. If an increase in the value resulting from revaluation compensates for the impairment of the same fixed asset which was previously recognized as an expense in the profit and loss statement, then the increase resulting from revaluation is recognized as income in the profit and loss statement as incurred. The long term investment revaluation reserve is decreased when the revalued asset is disposed, is no longer utilized, or the increase of value is no longer reasonable.

The increase in value recognized in the long term investment revaluation reserve under equity is reversed by recognizing a decrease in the profit and loss statement upon liquidation or disposal of the revalued fixed asset.

### **Receivables**

Receivables are disclosed at amortised cost net of impairment allowances. Doubtful debt allowances are recognized based on an individual management assessment of the recoverability of each receivable when objective evidence exists that the Company will not be able to recover the full amount of receivables according to the previously agreed repayment terms. The amount of allowance represents the difference between the carrying and recoverable amount of receivables. The allowance is charged to the profit and loss statement.

### **Provisions**

Provisions are recognized when a past event has given rise to a present obligation or losses and the amount can be estimated reasonably. The likelihood of loss is assessed based on management assumptions. In order to determine the amount of loss management is required to select an appropriate calculation method and make specific assumptions connected with the specific risk. No provisions were made as at 31 December 2021.

## *Notes to the financial statements*

---

### **Revenue recognition**

#### *Income from sales of goods*

Revenue from the sales of goods is recognized in the profit and loss statement after the risks and rewards of ownership are transferred to the client.

No revenue is recognized if according to the provisions of the transaction the Company retains significant risks pertaining to the ownership of goods and the goods can be returned.

#### *Income from services*

Income from services provided is recognized in the profit and loss statement as generated. Income is received and recorded according to signed cooperation agreements.

#### *Rental income*

Rental income is recognised on a straight-line basis over the rental term.

### **Long and short term classification**

Amounts with terms of receipt, payment or write off due in more than one year after the balance sheet date are classified as long term. Amounts to be received, paid or written off within a year are classified as short term.

### **Lease transactions**

#### *Operating lease – (the Company as a Lessor)*

The Company leases premises, which are part of revalued fixed assets. Depreciation is calculated on a straight-line basis over the entire useful life of the respective fixed asset in order to write its value down to the estimated carrying amount at the end of the useful life based on the rates set for similar fixed assets. Income from operating lease and client prepayments is charged to the profit and loss statement on a straight-line basis over the period of lease.

#### *Operating lease – (the Company as a lessee)*

Payments for operating lease are recognized in the profit and loss statement on a straight-line basis over the period of lease.

### **Fixed assets**

All fixed assets other than land, buildings and constructions are recognised on the balance sheet at historical cost less depreciation.

For other assets, depreciation and amortization is calculated in accordance with the straight-line method over the entire useful life of the respective intangible assets and fixed assets in order to write their value or revalued value down to the estimated book value at the end of the useful life.

The depreciation method is reviewed at least on an annual basis, at the year-end.

Subsequent expenses are added to the book value of the asset or recognized as a separate asset only where it is highly probable that future benefits related to this item would flow into the company and expenses of this item can be estimated reliably. Such expenses are written off over the entire useful life of the respective asset. When capitalizing the costs of installed spare parts, the book value of the spare parts is written off in the profit and loss statement.

Profit or loss from disposal of fixed assets is calculated as the difference between the carrying amount of the asset and income generated from sale, and income from the reversal of the revaluation reserve of the respective fixed asset, and charged to the profit and loss statement as incurred.

### **Accounting and valuation of stock**

Stock is carried at the lower of cost and net realizable value. Stock has been valued according to the FIFO method. Stock accounting is based on the perpetual method. Stock has been counted during the annual stock take.

### **Remuneration**

Remuneration is set according to employment contracts, taking into account the changing requirements and trends of the labour market: by mutual agreement on the application of specific principles: %, fixed numbers, individual conditions, combined conditions. Employees have access to the procedure for calculating remuneration (data selection algorithms, data processing procedures,

## *Notes to the financial statements*

---

data flow organisation). The Company provides only short-term remuneration benefits to its employees.

### **Grants**

Grants received for special types of capital investments are treated as deferred income which is gradually recognised as revenue over the useful life of the fixed assets received or acquired using grants. Grants received to cover expenses are recognised in the same period when the related expenses have arisen, if all the conditions of receiving the grant are met.

### **Corporate income tax**

#### **(a) Current tax**

On 1 January 2018 the Law on Enterprise Income Tax of the Republic of Latvia entered into force and set out a new regime for paying taxes. The tax rate is 20% from the taxable base determined by dividing the value of the amount taxable with corporate income tax by coefficient 0.8, includes:

- distributed profit (dividends calculated, payments equivalent to dividends, conditional dividends), and
- conditionally distributed profit (such as non-operating expenses and other specific cases provided for by the law).

The new tax regime is not applicable to the distribution of dividends from profit accumulated to 31 December 2017 and taxed under the previous taxation regime.

## Notes to the financial statements

### (2) Net sales

Net sales represents revenue generated during the reporting period from the Company's basic activities – sales of services, net of value added tax and discounts.

	<b>2022</b>	<b>2021</b>
	<b>EUR</b>	<b>EUR</b>
Ambulatory medical services	6 945 258	8 721 772
Services covered by insurance	375 522	642 080
<i>Paid ambulatory medical services</i>	<i>210 293</i>	<i>359 565</i>
<i>Paid in-patient care</i>	<i>165 229</i>	<i>282 515</i>
	<b><u>7 320 780</u></b>	<b><u>9 363 852</u></b>

The Company provides services only in the territory of the Republic of Latvia.

The Company does not disclose information on distribution of net sales by lines of business in accordance with Regulation No. 1893/2006 (EK) of the European Parliament and European Council of 20 December 2006, with which the statistic classification of business activity NACE rev 2 is established, as its disclosure could have a severe negative impact on the interests of the Company.

### (3) Cost of goods and services

The item represents costs incurred for generating net sales – such as costs of goods and services at acquisition cost, and costs related to purchase of goods and services.

	<b>2022</b>	<b>2021</b>

In December 2020, land, buildings and constructions were valued by independent experts. The valuation was carried out by the independent experts using a combination of the comparable transactions method and income method.

A new revaluation was not performed on 31 December 2021, as the management assessed that no significant changes had taken place in the market and the recognised carrying amount did not differ materially from the fair value of the property.

The fair value of land and building was determined by an external, independent property valuer, having appropriate recognised professional qualification and recent experience in the location and category of the property being valued.

The following table shows the valuation technique used in measuring the fair value of core real estate items included in position 'Buildings and land', as well as the significant unobservable inputs used:

*Notes to the financial statements*

Type	Valuation method	Significant unobservable data	Inter-relation between significant unobservable inputs and fair value measurement
Buildings and land in the amount of EUR 3 000 000 at Patversmes iela, Rīga	Fair value has been estimated based on the average of: Market comparison technique: The fair value was based on results of comparable sales of similar buildings. Discounted cash flow technique: The model is based on discounted cash flows from rendering services	Price per m2 EUR 452 Rent rate per m2 – EUR 2.3-9 Capacity – 90% Capitalisation rate – 9%	The fair value would increase (decrease) if the price per m2 was higher (lower). The estimated fair value would increase (decrease), if: rent rate would be higher (lower); capacity percentage would be higher (lower); capitalisation rate would be lower (higher);
Buildings and land in the amount of EUR 850 000 at Vecmīlgrāvja 5.līnija, Rīga	Fair value has been estimated based on the average of: Market comparison technique: The fair value was based on results of comparable sales of similar buildings. Discounted cash flow technique: The model is based on discounted cash flows from rendering services	Price per m2 EUR 327 Rent rate per m2 EUR 3.5-5 Capacity – 90% Capitalisation rate – 9%	The fair value would increase (decrease) if the price per m2 was higher (lower). The estimated fair value would increase (decrease), if: cent rate would be higher (lower); capacity percentage would be higher (lower); capitalisation rate would be lower (higher).

Type	Valuation method	Significant unobservable data	Inter-relation between significant unobservable inputs and fair value measurement
Buildings and land in the amount of EUR 630 000 at Melidas iela, Rīga	Fair value has been estimated based on the average of: Market comparison technique: The fair value was based on results of comparable sales of similar buildings. Discounted cash flow technique: The model is based on discounted cash flows from rendering services	Price per m2 EUR 315 Rent rate per m2 EUR 5 Capacity – 90% Capitalisation rate – 9.0%	Fair value would increase (reduce), if the price per m <sup>2</sup> was higher (lower). The estimated fair value would increase (decrease), if: rent rate would be higher (lower); capacity percentage would be higher (lower); capitalisation rate would be lower (higher).

According to Section 52(2)(2) of the Annual Reports and Consolidated Annual Reports Law, disclosures are provided concerning revalued fixed assets indicating their value had revaluation not taken place:

Had revaluation not taken place, the carrying amount of land, buildings and constructions as at 31.12.2021 would be EUR 3 191 888.
